Foreword

We, the staff of the 1951 Modulus, have endeavored to present a book which will be the source of some of your most cherished memories.

The value of our labors can only be ascertained by the intangible worth of the recollections and joys you may derive in future years.

It is our hope that this value will be incomputable, for only then will we know that our toils have been successful.

William C. Teagno

PRESIDENT'S MESSAGE

MEMBERS OF THE 1950-51 GRADUATING CLASSES:

Another academic year has passed. With its passing you have achieved freedom from the rigors of your curriculum and you rejoice in your new found and long awaited status as a graduate. You eagerly await the test of your mettle, confident in your purpose and competency. That is as it should be and you are to be congratulated.

But not all things are as they should be. Our every waking moment is permeated with doubt, confusion, uncertainty, depression. Worse than those, we are sometimes fraught with loss of faith, lack of confidence and the arising of distrust. It is not the province of this message to enumerate the causes. It should suffice to state that these things result from the acts of man. They are the end and hoped for product of evil and and designing minds.

This is not something new. The pages of history of this nation are filled with the record of similar challenges to the integrity of American patriots. All of us should take heart in the fact that nowhere in these same pages can be found any record of defeat of our American ideals and principals. It is your responsibilty as well as mine that our generation stamp out these evil influences.

This is not an original thought. It was first expressed in 1776 and concluded with this pledge: "* * *And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes, and our sacred Honor." Our pledge is no different today.

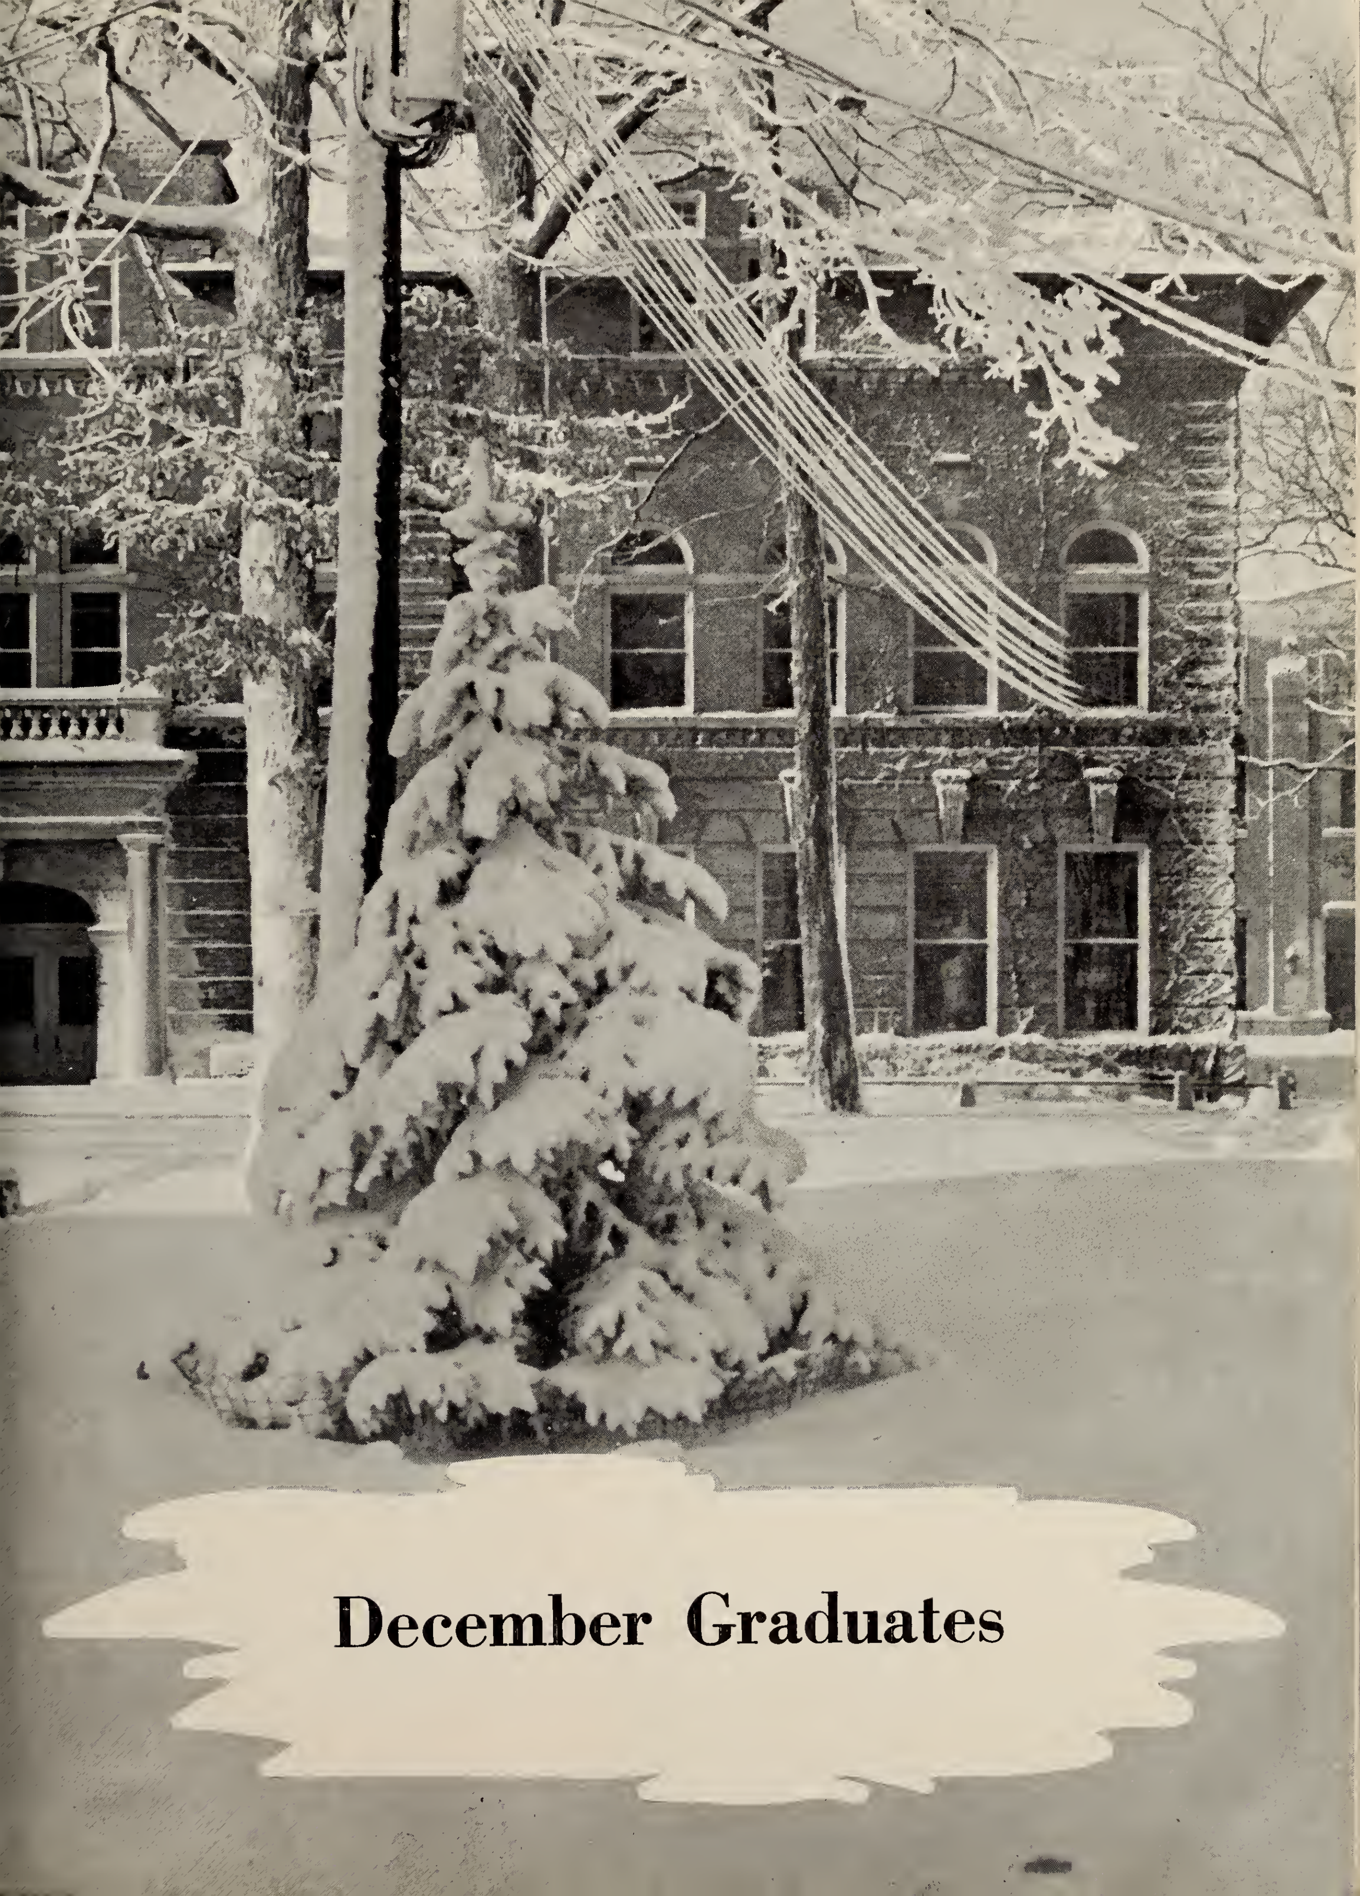
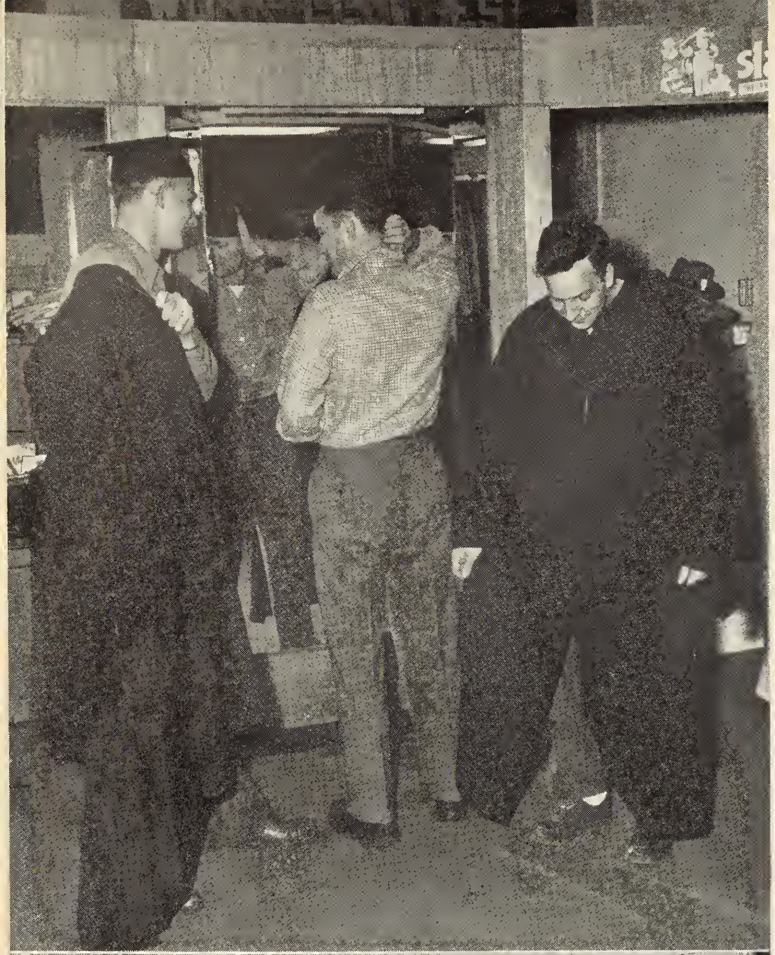
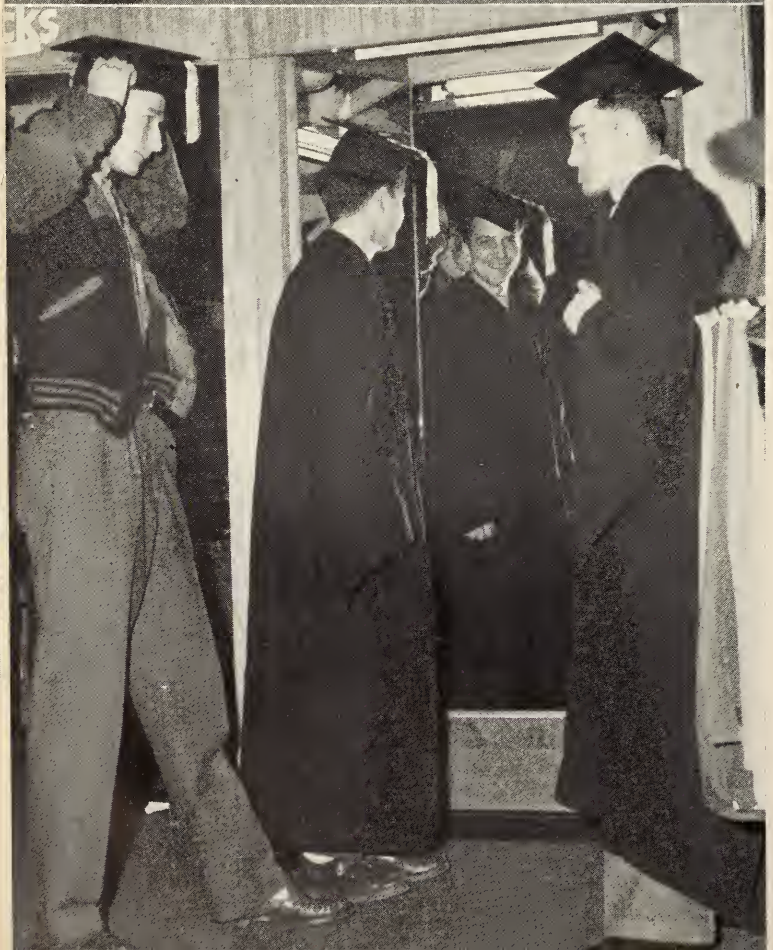
Presenting . . .

. . . *the* GRADUATES



December Graduates





We, the graduating class of 1950-51, wish to thank the Senior Class advisors, the faculty, the administration and all others with whom we have had contact, for the patience and understanding they have shown during our all too brief stay at Tri-State College.

To one profoundly wise man in the realm of the past these words of wisdom doubtless seemed to apply only to his time and age, to me however, here and now, they would seem rather, to apply in something like

A Graduate's Prayer

"God grant me the patience to accept those things which I cannot change, the courage to change those I can, and the wisdom to know the difference. . .

Skull and Bones, C. O. A. was inaugurated as an honorary society by a group of ten charter members in the spring term of 1948.

During the summer term the Skull and Bones was occupied with internal organization and at the end of the term inducted thirteen new members. Honorary members elected were Theodore Wood, J. Glenn Radcliffe and Bill Sunday as faculty advisers.

Skull and Bones in its ideals is to recognize outstanding student leadership in extracurricular activities, to promote student activities by encouraging students to become active in at least one campus organization, to promote student spirit and brotherhood and, finally, to promote to the highest degree the traditions, honor, and prestige of Tri-State College.

DONALD SNYDER
Secretary and Treasurer

Tau Sigma Eta, honorary engineering society, has incorporated under the laws of of the State of Indiana, on April 10, 1930. Outstanding academic work in the Engineering Department must be evidenced in order to be rewarded with membership.

Requirements for admissions are the completion of four terms of college work, with a minimum of twenty hours work during each of the four terms; a scholastic average of 2.1 out of a possible 3.00; with not more than five C's or C-plus, and no D's allowed. An average of "A" for three successive terms automatically creates eligibility for membership.

Tau Sigma Eta sands for brotherhood and friendship, a good social program, and the maintenance of high scholastic records, which should serve as goals for a well-balanced organization.

Alpha Beta Alpha, the honorary commercial society, was founded in September, 1938. The Society was created to recognize outstanding scholarship and leadership among students in the School of Commerce. The object of the Society is to create an enthusiasm for scholarship, to promote leadership, and to develop character.

Those who, through a combination of ability and earnest effort, become members, deem it a worthy honor as is evidenced by the active support and interest taken in the the Society by the alumni members.

Under the guidance of Professors H. R. Hoolihan and H. W. Hoolihan, the society encourages its members and all future members to maintain a high scholastic standing. To be eligible for membership, a student must maintain an average grade of "B" for four successive terms with no more than one "C", or an average grade of "A" for three successive terms.

The high ideals set by Alpha Beta Alpha as a standard, could well serve as a goal for all students of the School of Commerce.

INTER-FRATERNITY COUNCIL

WARD JENSEN
Treasurer

RALPH VEIRLING
Secretary

JIM RESER
Vice President

DICK GUCCIARDI
President

Historically, the Inter-Fraternity Council has been active since December 8, 1935. Membership consists of the four major officers plus two representatives from each fraternal organization recognized by the college. These men represent their respective fraternities on matters of policy government and fraternal social life. Worthliness of their laurels is evident by the ever successful Smoker Week—and the Never-To-Be-Forgotten Semi-Annual Round Robin.

It is our wish that the efforts put forth by these representatives may be perpetuated for all times, holding high the torch of fraternal life, and maintaining the ever ascending position of responsibility of this, The Inter-Fraternity Council.

Kappa Lambda Pledge Chapter, a new chapter of the Sigma Phi Delta fraternity was organized by a group of engineering students under the guidance of Professor LeRoy Horpendahl of the Epsilon Chapter, and received its charter on May 25, 1947.

The Chapter is outstanding in sports and scholastic achievement. It has won the Tri-State scholastic plaque twelve times, in addition to winning many trophies in basketball, softball and bowling.

Sigma Phi Delta is an international social fraternity of engineers, and membership is open to any student registered in the field of engineering, who has grades equal to the standards set by the college.

The aims of the fraternity are to promote the advancement of the engineering profession; to foster the advancement of engineering education; to instill a greater spirit of cooperation among engineering students and organizations; to inculcate in its members the highest ideals of Christian manhood, good citizenship, obedience to law; and to encourage excellence in scholarship.

In 1937, the Jewish men on the campus formed a Jewish fraternity. The chapter was active until the war, when, due to the influx of men into the armed forces, the chapter was temporarily discontinued. After the war, the fraternity Theta Mu Pi, Alpha Chapter was formed. This chapter carried on until the winter of 1949. At this time Theta Mu Pi elected to change from Alpha Chapter to Beta Chapter and became a nonsectarian organization.

The aim of Theta Mu Pi was to foster the educational, social and spiritual life of its members. On October 13, 1950, Theta Mu Pi, Beta Chapter, was officially notified of their affiliation as a chapter of the national fraternity, Beta Sigma Tau.

Beta Sigma Tau was founded in May, 1948, at Chicago. The first convention consisted of seventy-five delegates from eleven colleges. A constitution was adopted based on equality, understanding and unity.

This non-sectarian fraternity, formally called intercultural, is open to Christians and Jews, to whites and negroes, and to rich and poor.

The origin of this organization dates back to 1921, when it started its activities as the Club Hispana - Americana composed totally of Spanish - American students attending Tri-State College. After six years of existence, it was registered under the laws of the State of Indiana as the Alpha Chapter of Gamma Eta Alpha Fraternity.

An intensive movement begun by its organization culminated in fusion with the Phi Lambda Alpha Fraternity as the Eta Chapter. On December 26, 1931, during our annual convention, the Phi Lambda merged with the Sigma Iota to form the present Phi Iota Alpha Fraternity of which we are the Iota Chapter.

The aims are to foster a better sense of duty and study among the members and to create that Latin atmosphere which is an integral part of far-away homes of the members; constantly striving for that great ideal, the ultimate goal: "The political and economical union of all Latin-American countries.

Tau Kappa Sigma, founded upon the principles of brotherhood, equality and christian fellowship, took its position among campus fraternities on May 23, 1950. Although new in name, this organization has existed at Tri-State College since 1921. The everlasting reputation which it has achieved speaks for itself.

The goal for which members of Tau Kappa Sigma strive may best be expressed in these words from William Shakespeare: "To thine own self be true, thou canst not then be false to any man." Upon truly reaching this goal, Tau Kappa Sigma feels that a man then, and only then, realizes the true magnificence of fraternalism.

Be conscious of the fact that we always derive something from everything we do. The omniscient man, you know, did not become so under a lamp with an open book. No, his book was human nature, filled with pages of time, and studied under the world's light.

Alpha Chapter of Sigma Mu Sigma was founded on Good Friday, 1921, at Tri-State College, Angola, Indiana. Founded by three Master Masons, Sigma Mu Sigma came into existence primarily as a local Masonic fraternity. The organization expanded with the desire to become a national fraternity and maintained its high scholastic standards, and gained the advantage of a social fraternity.

Sigma Mu Sigma continued to grow and expand until there were nine active chapters in 1929. Due to uncontrollable circumstances, however, Alpha Chapter along with several other chapters was forced to become inactive in 1936. Through the efforts of loyal alumni brothers, Alpha Chapter was reorganized in 1940 and has again regained the enviable position previously held on the Tri-State campus.

It is still the hope, aim, and desire of Sigma Mu Sigma to create a well balanced college life. It is the desire of the fraternity to turn out men capable of taking their place in the world in their chosen field and in confidence in their ability to meet and mingle with their fellow men.

As we look back approximately twelve years, we contemplate on the beginnings of Alpha Gamma colony of Phi Kappa, and the honor and respect gained in its continuous course.

Our beginning was on January 8, 1939, after many weeks of laborious planning, when Alpha Gamma Omega, a local Catholic fraternity, was founded. The spirit of a few men, organizers of this Catholic fraternity, carried on through the many problems and hardships which confronted the group. Through effort and determination, all problems were squarely met, and were solved in one way or another.

Progress, at first, was slow, but after four years, Alpha Gamma Omega was ready to petition the Phi Kappa national fraternity. The charter was granted on June 26, 1943, and the name of the fraternity was changed to Alpha Gamma Colony of Phi Kappa.

We are proud of the accomplishments of Phi Kappa, and we know that with the blessings of God, Phi Kappa will continue on successfully in the future.

Lambda Chapter, Alpha Gamma Upsilon, had its beginning in the fall of 1927. Long a leading figure on the campus as a national social fraternity, greater benefits and higher prestige to its members and alumni initiated the desire to merge with a national collegiate fraternity. This became a reality when on May 8, 1949, Phi Sigma Chi received its charter and became known as Lambda chapter of Alpha Gamma Upsilon.

Since 1922, when H. R. Carter gathered three men about him and founded the first chapter of Alpha Gamma Upsilon, the fraternity has indeed fulfilled his dreams. Those hazardous days of beginning have long been forgotten, and A. G. U. has spread throughout Michigan, Indiana, and Ohio, establishing itself as an ever-growing collegiate fraternity.

We, of Lambda chapter, are meeting the challenge of the many brothers who have passed through the doors of the big house at 115 South Darling street, to maintain our high standing scholastically, socially, and in all athletic events. The keen competition between our chapters to capture the many yearly awards, links us in a bond of friendship and brotherhood, which will forever be significant of Alpha Gamma Upsilon.

Beta Phi Theta Fraternity was founded at the Milwaukee State Normal School in 1917. Plans for expansion were made in 1923, and since that time strong fraternity groups from other institutions have become affiliated wth Beta Phi Theta.

The history of the Delta Chapter of Beta Phi Theta dates back to 1922. At that time, a group of young men banded together as "The Four-Eleven Gang," their sole purpose being the promotion of good fellowship. It was from this organization that Lambda Phi Epsilon was born. The membership of this fraternity grew, and recognizing one of the great needs for college students, opened the first fraternity house in the history of Tri-State College in 1925. When the college gave recognition to fraternities in 1929, members realized the advantages of national membership and became the Delta chapter of Beta Phi Theta.

In twenty-one years at Tri-State, Delta chapter has never lost sight of the ideals of its founders. Those chosen for brotherhood are men of courage, initiative, and fortitude before our eyes. This policy of selection has insured lasting life and leadership for our fraternity, and has made Beta Phi Theta one of the most honored and respected organizations on the Tri-State campus.

Alpha Sigma Phi dates back to 1925, when it was known as Phi Lambda Tau, having been granted a charter on April 10 of that year. Four years later, with unsurpassed growth, Phi Lambda Tau merged with Alpha Delta Alpha, a national fraternity. When Alpha Delta Alpha was disbanded in 1935, the membership's efforts resulted in a chapter of Alpha Kappa Pi, another national fraternity. Eleven prosperous and successful years followed and Alpha Kappa Pi took another forward step in September, 1946, in the merger with another national fraternity to form Alpha Sigma Phi.

The chapter at Tri-State then became known as the Beta Omicron chapter of Alpha Sigma Phi. Alpha Sigma Phi stands for charity, culture, loyalty, patriotism, and perpetual friendship, and its members face a brighter future enkindled by the flame of these personal traits, which have always been animated, encouraged and developed within the walls of Alpha Sigma Phi.

The Sigma Epsilon Society of Tri-State College was organized in 1933. Any student enrolled in the School of Commerce is eligible to take part in the organization.

The aims of the society are to create a spirit of initiative in commercial students and to make available a limited amount of social and recreational activities.

Education is not gained from books alone, and active interest in Sigma Epsilon provides opportunities for students to round out their education.

AERO SOCIETY

DON CARROLL, *Vice Chairman*
CHARLES SANDUSKY, *Chairman*

The Institute of the Aeronautical Sciences is a national organization of aeronautical engineers. It has as members some of the world's most famous pilots and engineers connected with aviation and its many allied fields.

The institute publishes a journal to keep members posted on the developments and achievements in the aviation industry.

The business activities are in the hands of the four major officers. These four officers are elected by popular vote at a banquet, held each term. This banquet is the high spot of each term's activities and usually features a well known speaker from the aviation industry.

The Aeronautical Society wishes to extend its best wishes for good luck and success to the graduating class of 1951.

The society was fortunate this year in obtaining speakers from all phases of the field. In many instances, the speakers illustrated their talks with movies showing actual problems and procedures in connection with their work. The society was enabled to affiliate with the American Roadbuilders Association in the establishment of a Student Chapter on the Tri- State campus. These affiliations afford the Civil Society members an opportunity to keep up with the outside civil field by receiving monthly bulletins, magazines, and other literature pertaining to the civil engineering field.

Members of this society may feel proud of the activities in which they have taken part at regular meetings of the past year, and also in the greatly increased enrollment in the society. The society has exceeded all records of other years in promoting friendship and mutual interest among the Civil Engineering students.

It is hoped by passing members of the society that future members will carry forward the work, and progress, remembering our motto, "We will progress".

The Electrical Engineering Society, which had merged with the Radio Society in fall of 1943, was re-activated at a special meeting of the joint Radio and Electrical Societies held on January 9, 1947.

Since that time, the Electrical Engineering Society has been on its own and has made much progress toward desired ends. The primary purpose of the Society is to acquaint members with actual practice in their chosen field. To this end, officers of the society formulated a three fold plan: Speakers, motion pictures, demonstrations. The speakers are selected from leaders in the electrical field; and high standards are also set in the selection of motion pictures. Demonstrations are arranged by speakers, or by professors of the college.

Professor Clyde E. Shaw serves as sponsor of the society, and joins with the officers and members in extending a cordial invitation to the meetings to all interested students.

The Tri-State College Society Group, Society of Automotive Engineers, was formed by a group of S.A.E. student members, and the first meeting held on February 3, 1949. At present, the group has a large membership and holds regular meetings the first and third Wednesday of each month. The society welcomes engineering students attending technical schools and colleges or S.A.E. enrolled students. It is through student enrollment that the society brings engineering students into contact with outstanding engineers and their accomplishments in the automotive industry. The national membership of the society has been increasing each year, and at present has an enrollment of about 15,000 active members. There is also a student membership, which totals 3,800 in seventy-four engineering schools affiliated in the society, which now has twenty-five student branches.

BOOSTER CLUB

Durnig the early part of the summer term the organization of the Boosters' Club was announced. The initial turnout was small but it was quite evident that the group was enthusiatic. The summer term was spent in outlining the aims of the club and the rules and regulations by which it should abide. It was agreed that the club would welcome students, faculty members and townspeople members, to boost athletics at Tri-State. There would be no dues and the only membership requirements would be to have an interest in promoting the Tri-State College sports program.

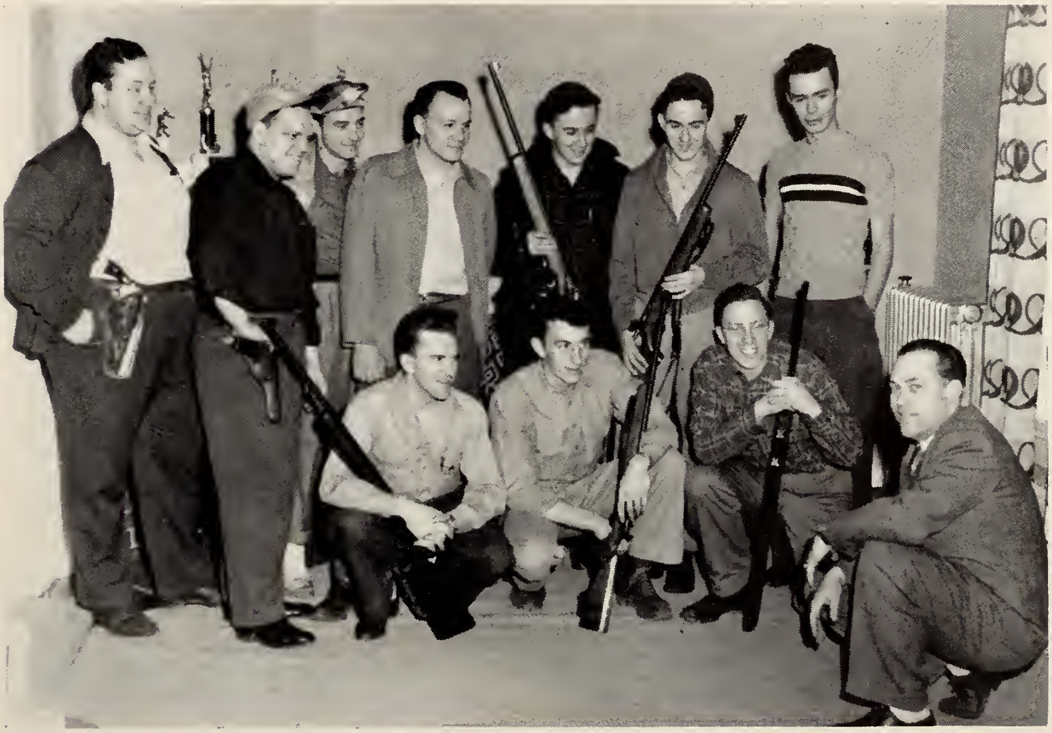
FRANK ACTON	*Faculty Adviser*

Below, kneeling: Dallas LaCoursiere, Bob Meredith, Don Krietzman, Frank Acton.

Standing: Gerry Burmeister, Joe Macewicz, Bill Omspach, John Checko, B. Rinehardt, B. G. Rinehardt, Ed McCorkle.



Under the initiative and direction of Professor Frank Acton the Tri-State Rifle and Pistol Association was started in October, 1949. Complying with the standards set by the National Riflemen's Association, the club received its charter on February 20, 1950. The purpose of the Rifle and Pistol Club was to establish interest in and start intramural competition both in rifle and pistol shooting.

STUDENT COUNCIL

The Student Council is an organization made up of representatives of the various student organizations to promote such campus activities as dances, inter-collegiate sports, election of class officers, and other activities for the benefit of the student body. The Student Council is the voice of the students, expressing their views to the college and to the public. Each of the twenty-four active organizations elects a junior and senior representative to present their best interests in the Council. It is the duty of the representatives to attend all regularly scheduled meetings, participate in committee work, and to report to their organizations any and all progress that has been attained. It is hoped that the high ideals for which the Student Council strives will be carried on in greater degree in years to come.

First row—Newman, R., Booster Club; Mould, R., Inter-Fraternity Council; Pavel, Ed, Beta Sigma Tau; Lamb, R., president; Lewis, F., secretary; Chickering, H., campus publications; Vaughn, D., Tau Kappa Sigma.

Second row—Weber, W., Alpha Beta Alpha; Cook, R., Chemical Society; Francis, R., Phi Kappa; Eckert, C., Alpha Sigma Phi; Stasik, W.. Junior Class; Gregory, C., Skull and Bones, C. O. A.

Third row—Chan, A., Chinese Club: Wooden, J. C., Society Automotive Engineers; Alvarez, J. R., Phi Iota Alpha: Livers, M. S., Sigma Epsilon: Betz, C. R., Sigma Mu Sigma.

COLLEGE BAND

Founded by the late Professor Almon G. Harshman in 1938, the Tri-State College Band has been under the direction of Roy C. Bodie, Jr., since 1947, when it was reorganized following World War II.

Noted for its versatility, they play for "Senior Class Days", high school concerts and basketball games. The senior program and high school concerts give the college musical group an opportunity to do advanced concert and solo work.

At its reorganization, the band consisted of only eighteen pieces, but its rapid popularity on the campus soon increased its membership. Mrs. Miriam Ramsay is assistant director of the band.

To The Advertisers

We say thank you for your generous support of the 1951 MODULUS.

You have contributed greatly to its success.

To The Class of 1951

The sincerest congratulations! May your paths in the future lead to even greater goals than you have set.
